

ZOOMAWAY ANNOUNCES PLANS TO RETRO-FIT ITS EXISTING PLATFORMS WITH BLOCK CHAIN TECHNOLOGY

NEWS RELEASE

TSXV:ZMA

VANCOUVER, BC – November 7, 2017 – ZoomAway Travel Inc. (TSXV: ZMA) (the “Company”) www.zoomawaytravel.com, has engaged **Wyred Insights** located in Reno, Nevada to begin incorporating Block Chain technologies into its White Label and Registration Management Systems (RMS). All existing systems will undergo changes to incorporate this incredible new technology. Production changes will begin immediately.

“Zoomaway is proud to be an early adopter of this technology within the Hospitality Industry,” stated Sean Schaeffer, CEO of Zoomaway Travel Inc. “The incorporation of Block Chain into our existing systems will have a profound affect on the company in a couple of different areas. Block Chain will dramatically increase our security protocols, it will greatly enhance the customer experience, and it will allow the company to reduce labor costs in both customer service and accounting. Because this new technology creates an easy flow with a ledger system, our operations will benefit from reduced manual accounting input, our systems will allow customers to more readily access and change their itineraries. We are excited with the potential. ”
